Subject: FL Assumption- Informational Webinar for Tribes
Attachments: 404 overview for Tribes.pptx

Simma and Tod,

We are providing the tribes that we have offered 106 NHPA consultation an informational webinar this afternoon at 2:00. See attached presentation. The purpose of the webinar is to give the tribes some general information about the 404 assumption process and a few specifics about the 106 NHPA consultation we're planning for FL's assumption request so that they can make an informed decision about whether they want to consult under NHPA. The slides for the NHPA consultation start on slide 18. You'll see some comment bubbles but those comments have since been resolved and will not show up on the actual presentation.

Based on the responses thus far, we anticipate that the Seminole, Miccosukee, Mississippi Band of Choctaw, and Coushatta Tribe of Louisiana (tentative) will participate on the informational webinar. We are giving all eight tribes until October 2nd to notify us whether they wish to consult under NHPA.

I think the presentation is pretty straight forward and the NHPA discussion should hopefully be consistent with the general approach we've discussed but please let me know if you identify any issues.

Thanks,

Matt
